Sales Tax - License Renewal

What if I am adding a location under the same business name?

If you are adding a second location under the same business name but at a different location you must pay the \$16 fee. You can only obtain a license for the additional location by filing form CR 0100 "Colorado Business Registration." However, if you are opening a second business under a different name and location you must file the registration form and pay the \$16 fee and \$50 deposit and would receive a different sales tax account number for that particular business.
